Support Marine Research in Bermuda!!

Crowdfund My Postdoc!

Lionfish, Galapagos Sharks, and the Endemic Hogmouth Fry

Dr. Corey Eddy is trying to raise enough funding to pursue four research projects.

- A) Seasonal Movements and Site Fidelity of the Invasive Lionfish (Pterois volitans and P. miles) in Bermuda
- B) Movement Patterns and Habitat Use of Juvenile Galapagos sharks (Carcharhinus galapagensis) in Bermuda
 - C) Migration Patterns and Diving Behavior of Galapagos sharks (Carcharhinus galapagensis) in Bermuda
- D) Stable Isotope Ecology of Bermuda's Endemic and Endangered Anchovy (the hogmouth fry, Anchoa choerostoma)

Scan the code for more information.
