Robert Powell, PhD
Marshall University, Exercise Sciences

RE: IRBNet ID# 1333441-1

At: Marshall University Institutional Review Board #1 (Medical)

Dear Dr. Powell:

Protocol Title: [1333441-1] Examining the Impact of Firearm Recoil during Skeet and Trap Shooting on Neurometabolic Changes Associated with Traumatic Brain Injury.

Expiration Date: May 2, 2019

Site Location: MU

Submission Type: New Project APPROVED

Review Type: Expedited Review

In accordance with 45CFR46.110(a)(2)(6), the above study was granted Expedited approval today by the Marshall University Institutional Review Board #1 (Medical) Vice Chair for the period of 6 months. The approval will expire May 2, 2019. A continuing review request for this study must be submitted no later than 30 days prior to the expiration date.

If you have any questions, please contact the Marshall University Institutional Review Board #1 (Medical) Coordinator Trula Stanley at (304) 696-7320 or stanley@marshall.edu. Please include your study title and reference number in all correspondence with this office.
